

**DEPARTMENT OF ENVIRONMENTAL PROTECTION & SUSTAINABILITY**

Interoffice Memo

TO: Kari Hodgson, P.E., Division Head, Engineering and Disposal  
Bureau of Solid Waste  
Department of Public Works

FROM: David V. Lykens, Deputy Director /signed/  
Department of Environmental Protection and Sustainability

DATE: November 26, 2018

SUBJECT: Hernwood Landfill Gas Migration Control System  
Stormwater Management Variance  
Patapsco River Watershed  
**EPS Project ID: D940148**  
**Tracking Number: 04-18-2855**

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the installation of active landfill gas vents. The existing cover conditions will be re-established once the project is completed. Although the disturbed area is in excess of 5,000 square feet, there will be no significant increase in impervious area as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.
